High resolution S-LED (Self-Scanning Light Emitting Diode) technology produces brilliant images

For small and growing businesses and home-office entrepreneurs who demand high quality colour printing, but may be tight on space, Fuji Xerox now has the perfect solution.

A technologically superior and highly affordable printer that provides stunning, high-quality colour printouts yet fits right on your desk. This is an entry level printing solution that is loaded with advanced technology you could previously only get from large and expensive standalone high end printers.

Award-winning technology

Fuji Xerox has raised the benchmark for high-quality, colour printing with a range of award-winning breakthroughs in printer technology that not only deliver eye-catching results, but are fast and simple to use, easy to maintain and save you money with every print out.

Quietly brilliant

Fuji Xerox's award winning S-LED (Self-Scanning Light Emitting Diode) and DELCIS (Digitally-Enhanced Lighting Control Imaging System) control technology ensure you get accurate, high-imaging quality at 1200x2400 dpi. Small and intelligent S-LED chips with fewer moving parts give you ultra-quiet operation, reduced energy usage, a high level of operational reliability and a sleek compact design.

DocuPrint CP105 b / CP205 / CM205 b / CM205 f / CM205 fw Best resolution in its class at 1200 x 2400 dpi

Other brands in its class only offer up to 600 x 600 dpi

High-speed colour correction

IReCT (Image Registration Control Technology) is a newly developed digital image registration control technology giving the ultra high precision of 1200 x 2400 dpi colour print out, by which image misalignments will be accurately corrected through a digital process.

Brilliant highlight

MACS (Micro Accurate Control Screen) optimizes the shape of screen elements in accordance with the image density of the area. This technology offers reproduction of smooth gradations and beautiful highlights.

Razor-sharp images

IE (Image Enhancement) technology⁺ improves flexibility in the number of screen lines, shapes and angles by scanning in two directions on a finer matrix to give you razor-sharp images, text and graphics.

+ on CP105 and CP205

Cost and energy saving

Fuji Xerox's award-winning technologies ensure you enjoy exceptional performance at every level. They also save you money with every page you print and help keep the environment greener.

Toner-Save Mode reduces toner usage by up to 30% for further cost savings.

Unique Printing Flexibility "Run Black" feature

Run black feature enables machine to continue printing in black when your color toner runs out.

Reduced energy consumption

EA(Emulsion Aggregation)-Eco toner is a newly developed special toner that allows

fusing to paper at a much lower temperature. This allows you to save up to 20% power consumption and reduce CO₂ emissions by up to 35% compared to conventional Fuji Xerox toners. That means bigger cost savings for you and a greener planet for us all.

EA-Eco toner is completely oil free with the sharp-melting characteristics which provide the right gloss even on different types of paper.

Overall EA-Eco toner reduces power consumption by approximately 40 % in glossy mode. Only genuine Fuji Xerox EA-Eco toner offers you this energy saving performance.

Trouble free and user friendly

With few moving parts, your printer requires very little maintenance and has few replacement needs. The only thing you need to change is the toner cartridge and that just takes a second or two!

Fast and smart

- Fuji Xerox technology understands the pressures of business and provide reliable and fast printing capability to enhance your workflow.
- High-speed color printouts at 10ppm on CP105b, 12ppm on CP205, CM205.
- Huge memory of 64 MB for DocuPrint CP105 b, 128MB for DocuPrint CP205
 DocuPrint CM205 b / 205 f / 205 fw lets you bandle more jobs faster.
- Easy network set up and configuration (CP205, CM205f / 205fw only). Centreware Internet Service (IS) allows you to check printer status and configure settings via a web browser.

Easy to use

Intuitive LCD screen on the DocuPrint CM205 model, providing a large 4-line backlit LCD display.

Direct scan to USB memory allows you to store scanned data easily and quickly without the need of a PC.

Wireless connectivity⁺ allows convenient and hassle-free printing.
