Monochrome Printer
Small effort, big results

The small personal printer, that's big on results

Precise, compact, efficient and great value for money. That's just what Fuji Xerox has created for you with this new monochrome printer. A compact printing unit, small enough to sit on your desk that produces fabulous quality prints and yet with few moving parts it is also extremely durable and ultra quiet in operation. And best of all, with up to 20 % savings in energy consumption it cuts down your power bills as well!

We work harder so you can work better

At Fuji Xerox, we know you want high-quality print results every time. That's why we have worked so hard to create a compact, high-quality, entry-level printer with the technology you need to get the results you want.

Guaranteed Quality and Reliability

Fuji Xerox's award winning S-LED (Self-Scanning Light Emitting Diode) and DELCIS (Digitally-Enhanced Lighting Control Imaging System) technology gives you consistently sharp images at true 1200x1200 dpi. With fewer moving parts, the S-LED chips help your system to run with whisper quiet reliability and give you real savings on your energy bills.

The compact size and sleek design is an attractive bonus that is as easy on your eye as the price is on your pocket.

Assured Speed

Time is money. That is why this printing solution has speed on its mind. High printing speed of 24 pages-per-minute. This achievement is among the fastest in its class today.

Better productivity

Every piece of work contributes to profit. That's why we have incorporated a massive memory of 64MB for the standalone model and 128MB for the multifunction model so you can handle more complex print jobs with higher resolution.

Save as you work
Fuji Xerox's energy saving technology reduces printing cost; this ensures you to save money with every page you print and help keep the environment greener.

Less energy, more savings

Fuji Xerox EA(Emulsion Aggregation)-Eco toner is a newly developed special toner that allows fusing to paper at a much lower temperature so you can save up to 20 % power consumption and reduce CO_2 emissions by up to 35 % compared to conventional Fuji Xerox toners. That means bigger cost savings for you and a greener planet for us all.

EA-Eco toner is completely oil free with the sharp-melting characteristics which provide the right gloss even on different types of paper. Only genuine Fuji Xerox EA-Eco toner offers you this energy saving performance.

Toner-Save Mode saves you even more money by reducing toner use by up to 30 %.

Trouble free and user friendly
With few moving parts, your printer requires very little maintenance and has few replacement needs. The only thing you need to change is the toner cartridge and that just takes a second or two!

Easy to use

Intuitive LCD screen on the DocuPrint M205 b model. Large 4-line backlit LCD.

Direct scan to USB memory allows you to store scanned data easily and quickly without the need of a PC.
