ROYAL SELANGOR®

It's hard to imagine making a pewter bowl with just these simple tools.

Experience it for yourself.

Opened in 1962, the dam is a popular recreational and picnic venue. It is located on gentle hillsides, next to Penang Hill. The dam commands panoramic views of the island and George Town.

A long time ago, our products were made by hand using very simple tools. Molten pewter was cast into sheets which were cut into various shapes and then knocked and formed into beautiful objects.

Take a guided tour and learn about the rich history of pewter and discover its beauty and versatility through interactive exhibits. Get a closer look at how pewter is made at our pewtersmithing demo area and for the adventurous, enrol in the School of Hard Knocks pewtersmithing workshop and shape a pewter dish of your very own in just 30 minutes.
