

Frequently Asked Questions

Q: What can I expect from the health talk?

A: I will present the chosen topic in which a short Q&A session will follow. The presentation would take approximately 45mins. At the end of the event, participants have the option make an appointment to be checked by the chiropractor at the clinic.

Q: What is the duration of the talk?

A: The duration will ultimately depend on the size of audience but it normally lasts for 45mins followed by a short Q&A.

Q: Is there any cost involved?

A: There is no cost involved. If the talk is to be held at your premises, I will use your facilities to house the presentation.

Q: Do I have to provide any equipment?

A: Yes, we would appreciate your assistance to provide a projector, a screen, 1 standard desk (for the projector and a laptop) and chairs for participants. I will bring along my laptop for the power point presentation.

Q: Will there be any products or services to be sold?

A: No. I would like to provide an Initial Consultation to those participants who can benefit from chiropractic care. The participants are able to make the appointment at their own free will but there will be no obligation for them to do so. However, the main objective of this educational health talk is to create awareness in chiropractic and the importance of spinal health. I can discuss this in further detail with you.

Q: How do I make an appointment to consult the doctor after the talk?

A: At the end of the presentation participants can approach my clinic assistants or talk to me to register for an appointment.
