## What Is Mariapolis?

It's experiencing for a few days - through moments of meditation, prayer, hearing life testimonies, and recreational activities - what it means to build bridges of dialogue and brotherhood between persons of different nations, races and languages.

## The Background:

The Mariapolis, which is the most characteristic event of the Focolare Movement, began spontaneously in the Trent Alps (Italy) in 1949 as a holiday period spent together. Then, over the years, Mariapolises began to spread and be held everywhere, gathering together people of all ages, social, cultural and religious backgrounds. The Mariapolis has been called a "family gathering" in which you experience that it is possible to live in a reconciled world.
