

RENEWABLE ENERGY ACT 2011

RENEWABLE ENERGY (RENEWABLE ENERGY POWER PURCHASE AGREEMENTS) RULES 2011

IN exercise of the powers conferred by subsection 12(1) and paragraph 61(b) of the Renewable Energy Act 2011, the Sustainable Energy Development Authority Malaysia makes the following rules:

Citation

1. These rules may be cited as the **Renewable Energy (Renewable Energy Power Purchase Agreements) Rules 2011**.

Period for distribution licensee to enter into renewable energy power purchase agreement

2. A distribution licensee shall enter into a renewable energy power purchase agreement with a feed-in approval holder—
 - (a) in respect of a renewable energy installation having an installed capacity of up to and including 1 megawatt and utilising solar photovoltaic technology as its renewable resource, within four weeks from receipt of a written notice by the Authority under subsection 7(2) that the application from a feed-in approval holder has been approved;
 - (b) in respect of all other renewable energy installations, within eight weeks from receipt of a written notice by the Authority under subsection 7(2) that the application from a feed-in approval holder has been approved

Form and substance of renewable energy power purchase agreements

3. Each renewable energy power purchase agreement—
 - (a) in respect of a renewable energy installation having an installed capacity of up to and including 12 megawatts and utilising biogas as its renewable resource, shall take the form and substance as set out in Form BG1 of the Schedule;
 - (b) in respect of a renewable energy installation having an installed capacity of above 12 megawatts and up to and including 30 megawatts and utilising biogas as its renewable resource, shall take the form and substance as set out in Form BG2 of the Schedule;
 - (c) in respect of a renewable energy installation having an installed capacity of up to and including 12 megawatts and utilising biomass as its renewable resource, shall take the form and substance as set out in Form BM1 of the Schedule;
 - (d) in respect of a renewable energy installation having an installed capacity of above 12 megawatts and up to and including 30 megawatts and utilising biomass as its renewable resource, shall take the form and substance as set out in Form BM2 of the Schedule;

- (e) in respect of a renewable energy installation having an installed capacity of up to and including 12 megawatts and utilising hydropower as its renewable resource, shall take the form and substance as set out in Form HP1 of the Schedule;
- (f) in respect of a renewable energy installation having an installed capacity of above 12 megawatts and up to and including 30 megawatts and utilising hydropower as its renewable resource, shall take the form and substance as set out in Form HP2 of the Schedule;
- (g) in respect of a renewable energy installation having an installed capacity of up to and including 1 megawatt and utilising solar photovoltaic technology as its renewable resource, shall take the form and substance as set out in Form PV1 of the Schedule;
- (h) in respect of a renewable energy installation having an installed capacity of above 1 megawatt and up to and including 12 megawatts and utilising solar photovoltaic technology as its renewable resource, shall take the form and substance as set out in Form PV2 of the Schedule;
- (i) in respect of a renewable energy installation having an installed capacity of above 12 megawatts and up to and including 30 megawatts and utilising solar photovoltaic technology as its renewable resource, shall take the form and substance as set out in Form PV3 of the Schedule.
