

RENEWABLE ENERGY ACT 2011

RENEWABLE ENERGY (CRITERIA FOR RENEWABLE RESOURCES) REGULATIONS 2011

IN exercise of the powers conferred by paragraph 60(a) of the Renewable Energy Act 2011 [Act 725], the Minister makes the following regulations:

Citation

1. These rules may be cited as the **Renewable Energy (Criteria for Renewable Resources) Regulations 2011**.

Criteria for renewable resources

2. A particular resource or technology shall satisfy the criteria set out in the second column of the Schedule in order to be regarded as the renewable resource specified in the first column of the Schedule for the purposes of the Act.

SCHEDULE

<i>First column</i>	<i>Second column</i>
<i>Renewable resource</i>	<i>Criteria</i>
Biogas	(a) a resource in gas form; and (b) produced by the anaerobic digestion or fermentation of non-fossilised and biodegradable organic material; including but not limited to manure, sewage sludge, products, by-products, residues and waste from agricultural, industrial and municipal wastes originating from Malaysia
Biomass	(a) a resource in solid form; and (b) comprises of non-fossilised and biodegradable organic material; including but not limited to products, by-products, residues and waste from agricultural, industrial and municipal wastes originating from Malaysia
Small hydropower	a technology that harnesses the power of flowing water to produce electrical energy
Solar photovoltaic	a technology that directly converts sunlight energy into electrical energy via a photoelectric process
